**New Hotel Name Decided for a Hotel to Be Opened under the Umekita Phase 2 District Development Project “GRAND GREEN OSAKA”**  
**Hotel Hankyu GRAN RESPIRE OSAKA**  
Scheduled to open in the second half of FY2024

Hankyu Hanshin Hotels Co., Ltd. (Head Office: Kita-ku, Osaka; President and Representative Director: Naoyoshi Yamanaka) has decided on the name of its upscale hotel scheduled to open under the Umekita Phase 2 District Development Project “GRAND GREEN OSAKA” as “Hotel Hankyu GRAN RESPIRE OSAKA.”

While inheriting the concept of “Hotel Hankyu RESPIRE OSAKA,” which opened in Yodobashi Umeda Tower in November 2019 and provides quiet healing (“Static: REST”) and vitality for tomorrow (“Dynamic: INSPIRE”), “Hotel Hankyu GRAN RESPIRE OSAKA” pursues its own concept as a new brand hotel bearing the term “GRAN,” which means “wonderful” or “nice” in Spanish and Italian, in its name, aiming to provide higher quality relaxation. The hotel is scheduled to open in the second half of fiscal 2024, featuring a sense of comfort that enables guests to feel nature and peace in an urban area and a touch of adult taste.

The opening date and reservation start date will be informed as soon as they are decided.

| Open date:             | Second half of FY2024 (scheduled)  |
| Ancillary facilities:  | Restaurant, bar, lounge, fitness room, etc.  |

## □ Features of Hotel Hankyu GRAN RESPIRE OSAKA

### ◆ Main target

The main target is inbound adult tourists who are accustomed to traveling for sightseeing and leisure purposes based in Osaka (Umeda). We will try to separate this hotel from “Hotel Hankyu RESPIRE OSAKA,” which mainly targets inbound families and groups.

### ◆ Design concept

The design concept is “Natural State.” Once you step into the hotel, you will forget that you are in an urban area and be welcomed by a space that fills your senses. You can be natural while staying in Osaka (Umeda), which is a center where tourists gather from all over the world and is a downtown area. Built under the Umekita Phase 2 District Development Project “GRAND GREEN OSAKA,” the hotel will pursue “comfort” as a hotel near the station and create new value that can only be found here.

Entrance (1st floor)

Hotel lobby (5th floor)

### ◆ A space where adults can enjoy themselves

All 482 guest rooms are configured to welcome up to two guests, creating a space where adults can enjoy themselves, spending a relaxing time in a natural manner.

### ◆ Establishment of a club floor

The upper floors (26th and 27th) are club floors for guests who prefer slightly larger rooms.

They provide a high-quality space for adults who are accustomed to traveling.

### ◆ Establishment of a club lounge

On the 27th floor, there will be a club lounge that can only be used by guests staying on the club floors.

This is a high-quality space where you can relax and enhance your “REST” for vitality for tomorrow.

Club lounge (27th floor)

- ◆ Establishment of a lounge exclusively for guests  
On the 6th floor, a guest lounge will be set up for guests to use. This is a facility that can be flexibly used by experienced travelers according to their own style. This floor will also have a small room for changing clothes and a powder room.
